EXPERIENCE

Leads Near Me, Lawrenceville, GA — Senior React/NextJS Developer

March 2024 - PRESENT

Took over and maintained a mission-critical customer-facing reporting software built in React with a Node.js backend, MongoDB, and TypeScript.

Upgraded and secured MongoDB databases and AWS EC2 servers; improved Jenkins CI/CD pipeline.

Built three major internal tools using React, Next.js, MongoDB, and Tailwind CSS:

Hub: Centralized management tool using WHM/cPanel APIs for managing 1000+ client websites hosted on A2 Hosting servers.

Scheduler: Embeddable appointment tool that integrates with client websites and Tekmetric, offering seamless appointment booking and CRM sync.

Portal: Internal CRM and KPI dashboard for staff to manage clients, meeting notes, geographic targeting, call metrics, and marketing strategies.

Led and mentored junior software developers hired to assist in project delivery and maintenance.

Designed and implemented an in-house web hosting platform using AWS EC2, EBS, and a Linux-based OS; installed and configured WHM/cPanel, automated backups, and developed a comprehensive disaster recovery plan for company-wide deployment.

Omni Coffee Brands, Atlanta, GA— Senior React Engineer

October 2022 - March 2024

Designed and launched omnicoffeeandeggs.com and omnicoffeebrands.com, improving UX and branding.

Built Omni University, a full-stack training platform with role-based access control, secure APIs, and custom dashboards using MERN stack.

Created geo-tracking features using GPS APIs and custom distance algorithms to power location-based discounts.

Led all QA, deployment, and performance testing initiatives.

SKILLS

Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, Materialize, EJS, Responsive Design

Backend: Node.js, Express.js, REST APIs, MongoDB, Mongoose, TypeScript

Authentication: NextAuth.js, OAuth2, Passport.js, Bcrypt

DevOps: AWS EC2, Jenkins, CI/CD, Vercel, MongoDB Atlas

Other Tools: Git, GitHub, Visual Studio Code, Agile, Debugging & Testing
